ABOUT MH KIMYA

Formulating Excellence in Every Fragrance

MH Kimya develops and manufactures high-purity fragrance oils and chemical formulations for industrial-scale production, serving the cosmetics, plastics, detergent, and home-care sectors. Every formulation is built for consistency, stability, and performance across large production runs.

This catalog presents our core fragrance range, organised by industry application. Dosage rates, thermal and pH stability figures, and packaging options are noted for each product to support formulation and procurement planning.

• In This Catalog

- 01 Cosmetic Fragrances
- 02 Fragrances for the Plastics Industry
- 03 Detergent & Cleaning Fragrances
- 04 Soaps
- 05 Air fresheners
- 06 Softeners

Cosmetic Fragrances

Fine fragrance oils formulated for personal care and cosmetic applications, engineered for skin-contact stability, colour clarity, and consistent olfactive performance across production batches.

Placeholder specifications — swap in real values before sending to buyers.

Red Rose MHK-COS-014

COSMETIC FRAGRANCES

A classical rose accord with a soft, powdery drydown. Formulated for creams, soaps, and body-care lines seeking a heritage floral character.

Appearance	Clear, pale amber liquid
Olfactive Family	Floral — Rose
Recommended Dosage	0.3% – 0.8%
Application	Soap, body lotion, cream
Flash Point	> 61°C (placeholder)
Packaging	1 kg / 5 kg / 25 kg drum
Shelf Life	24 months, sealed, cool & dark

Lavender MHK-COS-022

COSMETIC FRAGRANCES

Herbal-floral lavender with a clean, calming profile. Popular in skincare, bar soap, and spa-line formulations.

Appearance	Clear, colourless to pale yellow liquid
Olfactive Family	Aromatic — Lavender
Recommended Dosage	0.3% – 1.0%
Application	Soap, shampoo, body oil, candle
Flash Point	> 60°C (placeholder)
Packaging	1 kg / 5 kg / 25 kg drum
Shelf Life	24 months, sealed, cool & dark

Lilac **MHK-COS-031**
COSMETIC FRAGRANCES

A soft, green-floral lilac note with a delicate powdery finish, suited to premium personal-care lines.

Appearance	Clear, pale liquid
Olfactive Family	Floral — Lilac
Recommended Dosage	0.3% – 0.8%
Application	Cream, lotion, talc, soap
Flash Point	> 61°C (placeholder)
Packaging	1 kg / 5 kg / 25 kg drum
Shelf Life	24 months, sealed, cool & dark

CATEGORY 02

Fragrances for the Plastics Industry

High-purity fragrance concentrates designed to withstand extrusion, injection-moulding, and thermoforming processes without loss of scent intensity or discolouration of the substrate.

Placeholder specifications — swap in real values before sending to buyers.

Lemon MHK-PLA-007

FRAGRANCES FOR THE PLASTICS INDUSTRY

Bright, high-impact citrus profile engineered for thermal stability in plastic masterbatch and moulded goods.

Appearance	Clear, colourless to pale yellow liquid
Olfactive Family	Citrus — Lemon
Thermal Stability	Up to 180°C (placeholder)
Recommended Dosage	0.1% – 0.4% of resin weight
Application	PVC, PE, PP moulded articles
Packaging	5 kg / 25 kg / 200 kg drum
Shelf Life	24 months, sealed, cool & dark

Mixed Fruit MHK-PLA-018

FRAGRANCES FOR THE PLASTICS INDUSTRY

A rounded tutti-frutti accord balancing sweetness and freshness, formulated to survive high-shear processing.

Appearance	Clear, pale liquid
Olfactive Family	Fruity — Blend
Thermal Stability	Up to 180°C (placeholder)
Recommended Dosage	0.1% – 0.4% of resin weight
Application	PVC, PE, PP moulded articles
Packaging	5 kg / 25 kg / 200 kg drum
Shelf Life	24 months, sealed, cool & dark

CATEGORY 03

Detergent & Cleaning Fragrances

Alkali- and surfactant-stable fragrance oils built for liquid and powder detergents, dish care, and household cleaning formulations — tuned for lasting scent throw on textiles and hard surfaces.

Placeholder specifications — swap in real values before sending to buyers.

Strawberry MHK-DET-041

DETERGENT & CLEANING FRAGRANCES

Juicy, sweet strawberry accord that performs well against high-pH detergent bases without fading.

Appearance	Clear, red-tinted liquid
Olfactive Family	Fruity — Strawberry
pH Stability	Stable pH 6 – 11 (placeholder)
Recommended Dosage	0.3% – 1.2%
Application	Liquid detergent, dish soap
Packaging	5 kg / 25 kg / 200 kg drum
Shelf Life	18 months, sealed, cool & dark

Lilac (Home Care) MHK-DET-052

DETERGENT & CLEANING FRAGRANCES

A cleaner-facing lilac variant reformulated for surfactant compatibility and long-lasting freshness on fabric.

Appearance	Clear, pale liquid
Olfactive Family	Floral — Lilac
pH Stability	Stable pH 6 – 11 (placeholder)
Recommended Dosage	0.3% – 1.2%
Application	Powder detergent, surface cleaner
Packaging	5 kg / 25 kg / 200 kg drum
Shelf Life	18 months, sealed, cool & dark

CATEGORY 04

Softeners

Fragrance oils formulated specifically for fabric softener bases, optimised for emulsion stability and a lasting deposit on textile fibres through rinse and dry cycles.

Placeholder specifications — swap in real values before sending to buyers.

Fabric Softener Bloom MHK-SFT-003

SOFTENERS

A signature soft-floral musk blend built for cationic softener bases, delivering strong initial impact and a clean residual scent on dried fabric.

Appearance	Clear, pale liquid
Olfactive Family	Floral Musk
Emulsion Stability	Stable in cationic base (placeholder)
Recommended Dosage	0.4% – 1.5%
Application	Liquid fabric softener
Packaging	5 kg / 25 kg / 200 kg drum
Shelf Life	18 months, sealed, cool & dark
